## BAKERY RAZED

Demolition work has already begun on the old MSH Bakery, and it won't be long until that unit of the hospital will be just a memory.

There is much good lumber and material in the old building and the best of this will be salvaged.

The resultant rubble will be trucked to the site of the low places on each side of the main entrance road and used to fill these areas. At present the low spot on the upper side of the road is a big mud puddle and could easily become a breeding place for herds of mosquitos.

The area extending from the lower side of the road to Medical Row will also be filled and leveled.

The hospital Bread contract has been awarded to the Langendorf Bakeries, Inc., of San Francisco. They will also supply Donuts and Cookies.

MSH consumes 1000 twenty-two ounce loaves a day.

The Cake and Pastry contract has been awarded to the Model Bakery in Ukiah. Total expenditure for the two contracts amounts to approximately \$7000 a month.

## TO SEE PLAY

Promptly at 7:45 Friday evening, 17 selected women patients from MSH, accompanied by 3 attendants, will journey to Ukiah to see the play, "Junior Miss".

This sparkling comedy play made a big hit on Broadway, where it enjoyed a long run, later being made into a Movie. When the play was in San Francisco, seats were at a premium, enjoying a long run there also.

"Junior Miss" is being presented in Ukiah at the High School Auditorium by a talented group of young artists and should prove highly entertaining.

Saturday evening at the same time 17 men patients with 3 attendants, will be privileged to see the show. Curtain time is 8:15

## BUILD NEW COTTAGES

Three new cottages are now under construction by the Division of Architecture on Lower Medical Row.

Robert Chambers is supervising the building and rapid strides are being made. The foundation forms are in place and concrete is already being poured.

With the continuation of fair weather, construction will proceed rapidly and the cottages should be completed this summer.

Business Manager J. J. Garvey states that the buildings will be of six-room and bath construction, with ample floor space and will be modern in every respect. Many new conveniences will be incorporated in the structures.

The cottages are to be erected at an approximate cost of \$60,000.00, according to present estimates but may be built for considerably less as material costs decline. Day labor is being employed by the Division of Architecture and Mr. Chambers is on the ground to keep things moving.

## NEW AA SPONSOR

George S of Santa Rosa, the newly appointed sponsor for the MSH Alcoholics Anonymous group, was here last Sunday evening, accompanied by four other members of that chapter.

He is replacing "Dee" in that capacity, in line with the Santa Rosa policy of rotating sponsors.

The meeting held in the Auditorium was presided over by Myrl G, and was attended by 11 women patients and 26 men.

Two visitors, one lady from Ukiah and another from Vallejo, were also in attendance. An interesting program was presented and A. A. phonograph recordings were played.

The Santa Rosans are planning to have a meeting hall of their own, with a seating capacity of 180, soon. The new hall is expected to be ready for occupancy within five or

# PICTURE AHEAD

In full bloom and dressed in all the glory of Spring is the gorgeous "Weeping Flowering Cherry" tree, centered in the front yard of Cottage 6, where reside Dr. and Mrs. E. L. Lochen.

This beautiful tree, with its myriads of pink blossoms, is now in full bloom and well worth a short walk to get a view of Spring in all her majesty.

One of the many exotic and rare trees, shrubs and flowers, that are always under the diligent care and scrutiny of Fred Figone, the MSH Greenhouse boss, this flowering tree is a "Mecca" for nature lovers.

What a "picture ahead" this "Weeping Flowering Cherry" would make for camera fans!

# GAY NINETIES PRACTICE

Practice for the MSH Gay Nineties Review got away with a bang on the morning of April 3 in the Auditorium.

Costumes! Wow!

They've already been designed -- in color! The producers have drawings of them which show exactly how they will look when the big extravaganza is produced.

Larry De of Ward 14 has written a script that takes in about all the best talent in MSH. It's funny, the songs are catchy and the first rehearsal indicates that the cast will be one of the best ever to put on a show at the Hospital.

There will be songs Mother, Dad, Grandma and Grandpap sang, in those rollicking days of the 90s, when women's skirts and hair were long, but not as long as their romantic sighs.

Watch for that date!

# WARD MOVIES

Movies were taken to wards and cottages on April 1 and 2, and patients were made happy along with their surprise at the innovation. There will be more of the same kind of entertainment, Mrs. Dorothy Buchanan announced. Wards not yet visited by the movies soon will be, she said.

New pictures are coming soon for these special shows. The first flickers were somewhat in the nature of publicity for the Community Concert Programs. An enthusiastic

# WOMEN GRANTED NEW PRIVILEGES

At a meeting last Thursday, March 31, of the MAP Committee, all principals interested engaged in a lively round table discussion of problems of especial interest to those concerned. As a result, women parole patients were granted additional privileges.

Those present were: Dr. Williams, Dr. Goodstone, Gordon McWhirter, Social Worker; Zeryl Dryden, Assistant Supervisor; Charge Attendants Frank Bulla, LaVerne Evans, Mrs. Bessey Scott, Mrs. Estelle Tuttle, and patients Maybelle H, Myrl G and Fred M, representing Wards M, I and 8 respectively.

It was decided that there shall be no further discrimination between men patients on Ward 8 and women patients on Wards I and M in the matter of mail and smoking. Patients may write whenever so inclined, letters are to be sealed by the patient and sent to the Ward doctor unopened, where they will be stamped and mailed uncensored.

It was brought out that patients on Ward 8 can smoke at any time and at any place on the Ward except in the dormitories. Women patients in Wards I and M are to be permitted the same privileges except that bed patients in Ward M must be supervised by another responsible patient because of fire hazards, and patients on Ward I will not be permitted to smoke in the day room.

Orders to this effect will be issued by Dr. Williams and sent to Wards I and M through the Matron.

Dr. Williams stressed the fact that "this is a hospital, not a jail. Our function is to help, not to punish; however, violators of any privileges shall immediately be deprived of those privileges."

audience on Ward 12 saw the pictures April 1. The film was shown again April 2 on Ward H in the morning and on Ward A in the afternoon. Those being able to see the pictures were patients in Cottages G, H, I and K, and Wards A, B and C.

Mr. Yagle, in charge of recreation on Ward 12, was projectionist for the show on Ward 12 and George Carmichael showed the film on the other wards.

SATURDAY'S MOVIE IS "DREAM GIRL"

# NEWS FROM THE WARDS

LETTERS TO THE EDITOR:

## ALCOHOLIC OR DRUNK

Having come back for a second try at curing myself as an alcoholic, I have observed and studied many so-called alcoholics. As a result of these observations and studies, I have arrived at one unquestionable conclusion, namely, "some are" and "some are not".

In the "not" class, we find a group who seem to make no effort at all to curb their drinking and use the hospital solely as a place to eat and sleep (perhaps drink), until the weather is good or job possibilities are not to be confused with permanent employment, as such work would not become acceptable to the "are nots". Work for a month or two and the "are nots" are ready for another so-called vacation at the hospital.

In the "are" class, we find those who honestly and sincerely are trying to do something about their excessive drinking and, though they may make several trips to the hospital before they succeed in that regard, they are, in my opinion worth the time and effort of the hospital staff.

In conclusion, the "are nots" are penalizing the "are" by breaking rules and regulations, and bringing restrictions on those who are really trying to better themselves and endeavoring to pave the way to a normal way of life.

What to do with the "are nots"? Well, your guess is as good as mine.

An Alky, Ward 8.

P.S.---Any similarity between the type of alcoholic and the editor is purely coincidental.

Earl W, Ward 8, has the full sympathy of his helpmates in the Main Kitchen. Earl woefully paid a visit to Dr. Frost, MSH dentist, and returned minus a wisdom tooth that had been grievously paining him. Condolences are in order.

Wilford F, Ward 9, who underwent an appendectomy last Tuesday, is doing nicely. Jr. J. F. Orr, assisted by Dr. H. V. Bair, performed the operation.

DON'T FORGET YOUR MAIL BAG!

## WARD TRANSFERS

William W was transferred from Ward 8 to Ward 1; Peter G from Ward 8 to Ward 5; Elmer S and Rupert H from Ward 8 to Ward 9; Raymond B, Ralph C, Larry D, Thomas H, Wilton H, Otis H, Robert H, George M and Ray N were transferred from Ward 8 to Ward 14;

Pat F was transferred from Ward 14 to Ward 8 and assigned to Lawn Crew.

Maria B, Sally T, Agnes W, Elva M and Isabelle M were transferred from Ward I to Ward H. Maria, Isabelle and Agnes are working in the Laundry.

## VISITS IN UKIAH

Lila H, Ward I, the genial lady who dishes out the fruit at meal-times in the ward kitchen, spent an enjoyable day in Ukiah last Thursday, March 31.

She was the guest of Dr. and Mrs. J. H. Hansen of that city, and the two ladies put in the afternoon shopping and keeping an appointment with the oculist Lila visits periodically for eyesight check-up.

Lila, during her tender years received her nurses' training from Mrs. Hansen at McNutt's Hospital in San Francisco, when the former was a student nurse.

Leaving the hospital before lunch and returning after dinner, Lila reported a lovely day in town.

TALMAGE.....6  
HORSETRADER ED'S...4

Resplendent in their new uniforms, the Talmage Sluggers got off to a flying start in the opening game of the 1949 baseball season by defeating the team of Horsetrader Ed from San Francisco last Sunday by a score of 6 to 4.

The game, played before a capacity crowd of rabid baseball fans at the MSH ball park, was replete with thrills and was featured by the superb pitching of the Slugger's ace pitcher, Ado Severi, and the equally stellar hitting of Ernie Mosna. Another feature of the game was the splendid fielding of Bob Guidi.

Horsetrader Ed's nine were Winter champions of the San Francisco Recreation A A League, and presented a formidable array of players.

Norman Baird started for Talmage and pitched 3-1/3 innings, being touched for 4 runs before he was lifted for Severi. From then on, Severi had his opponents on the hip, holding them scoreless the rest of the game.

Jacobs started for Horsetrader Ed and pitched 6 innings, being relieved by Montani, who ran out the string.

Severi allowed only one hit while Baird was touched for six.

Talmage nicked the opposing pitchers for nine safeties, Ernie Mosna getting 3 for 4. Oehler was top man for Ed's, with 2 for 4, while Francesconi got the only extra base hit of the game, a mighty three base clout.

Both teams made three errors.

The starting lineup for the Sluggers last Sunday was: Myers 2B.,

## EMPLOYEE ACTIVITIES

Mrs. Gertrude Elliott, MSH Secretary, begins her vacation Thursday, April 6. Mrs. Elliott says she has no definite plan other than to catch up on some unfinished work at home and a much needed rest.

During Mrs. Elliott's absence, Mrs. Hazel Fanslow will take over the "helm" in the Secretary's office.

\*\*\*\*

A reliable rumor has it that E. R. Stilwell, in charge of MSH Men's Marking Room, plans a fishing trip about April 21 at a spot where the San Joaquin River gets heavy and has lots of branches and islands.

"E. R." says, "If so, I am reserving the 'whoppers' until I get back."

\*\*\*\*

The regular monthly meeting of the CSEA will be held next Tuesday, April 12, in the MSH Auditorium.

\*\*\*\*

L. E. Miller, head supervisor, and Mrs. Miller, in charge of hydrotherapy, have returned from a three weeks' vacation. Much of the time was spent in Southern California, where they visited Santa Monica, Newport Beach and Balboa Beach. Returning north they stopped at Santa Cruz, spent a day in San Francisco and a week in Lake County where "they caught a few fish".

It takes several hours and about 1500 nuts to put an automobile together, but it only takes ONE nut about a minute to scatter the same automobile all over the highway.

On his wedding anniversary, a gentleman who had been married for 32 years wired his wife \$32, with this message: "Congratulations from your only husband. Would you like to try for 64?"

- 6 pm Wednesday and Sunday, Alcoholics Anonymous Meetings.

IN WARD 8

- 1 pm Thursday Social Group Meeting for Alcoholic Patients.

### BASEBALL HIGHLIGHTS

Did somebody say that Sam Ray missed last Sunday's ball game?

That cannot be true, for we are sure we heard him way up here in the Pomo News office.

What say, Sam?

-----

Bob Guidi, centerfielder for the Sluggers, certainly robbed a Horse-trader Ed's player of a sure extra base hit last Sunday with that spectacular hand-stand catch in right-centerfield.

-----

Two games are scheduled by the Talmage Sluggers for this weekend. Both are with Smiley Jack's swell aggregation from San Francisco.

Game time for Saturday will be 2:30 p.m., while Sunday's game is set for 1:30.

## DOCTOR WILLIAMS SAYS

Dr. Lawrence Kolb has recently been appointed acting Director of the Department of Mental Hygiene

following the resignation of Dora Shaw Heffner, who resigned because of ill health.

The former director gave up her post following a period of serious illness in order to regain her health.

\*\*\*\*

Mr. J. J. Garvey and I left MSH last Friday at 6 a.m. for Sacramento, returning at 9 that evening.

There we met Dr. Kolb, who accompanied us to the Division of Architecture offices. We consulted until 3 p.m. in regard to the new MSH buildings, hospital and treatment unit. A new administration building is to be constructed.

\*\*\*\*

The Bakery ceased operations March 31 and has not turned a wheel since. Bread is now being supplied by Langendorf Bakeries, Inc., and the pastry is coming from the Model Bakery in Ukiah. The old bakery building is rapidly being torn down.

\*\*\*\*

Dr. Lawrence Kolb called at MSH on official business Thursday, March 31.

Mrs. Katherine Steele, Director of Nursing Service from Sacramento, visited here recently and brought along 143 magazines, 1 novel and 1 Pocket Book.

## TOWARD BETTER MENTAL HEALTH

The story of nervous and mental disease is a story about people you know - your neighbors, friends and relatives. It is a story about nervous people like Fred, moody people like George, lonely people like Mary - people who have cracked under the strain of living.

Fred was a good mechanic. In fact, he was so good that his boss decided to promote him to foreman. About a week before the promotion was to be made, Fred took to his bed, said there was something wrong with his leg, and insisted that he couldn't move. X-rays were taken; general practitioners were called in. They could find nothing.

What had happened to Fred? When he was to be promoted to start on a new job, he became anxious and fearful. He knew how to operate a lathe and was happy while he was doing it. But responsibility for supervising other men had him scared.

The psychiatrist - a doctor who has made a study of the emotions and the mind - diagnosed his case as hysteria, a form of neurosis.

"Fred's bad leg", says the psychiatrist, "was his way of solving a problem. If he had a bad leg, he couldn't be expected to go back to work and face a situation of which he was afraid. Fred wasn't faking. His fears actually interfered with his walking. He was firmly convinced that he couldn't use his leg. Back of his fear of the new job as foreman were a lot of fears and conflicts which he didn't even know he had.

"He was afraid because he thought he would fail because of an earlier experience, one he had forgotten. When he was ten years old, Fred had been left to take care of his younger brother while his mother went on an errand. While she was gone, his brother ran into the street and was almost killed by an auto. When the mother came back, neighbors told her the story. She punished Fred severely and told him that never, never would he be left to take care of his younger brother again. This was an unfortunate experience in Fred's life and it left its mark. It made him panicky when he was faced with the supervision of others."

Over a long period of treatment

### GLORY OF SPRING

Spring, with all it signifies throughout the Temperate Zone, has come again to MSH. Spring has more significance this year at MSH than usual, however. It will go down in the records as the Spring which saw the start of MSH's greatest building program.

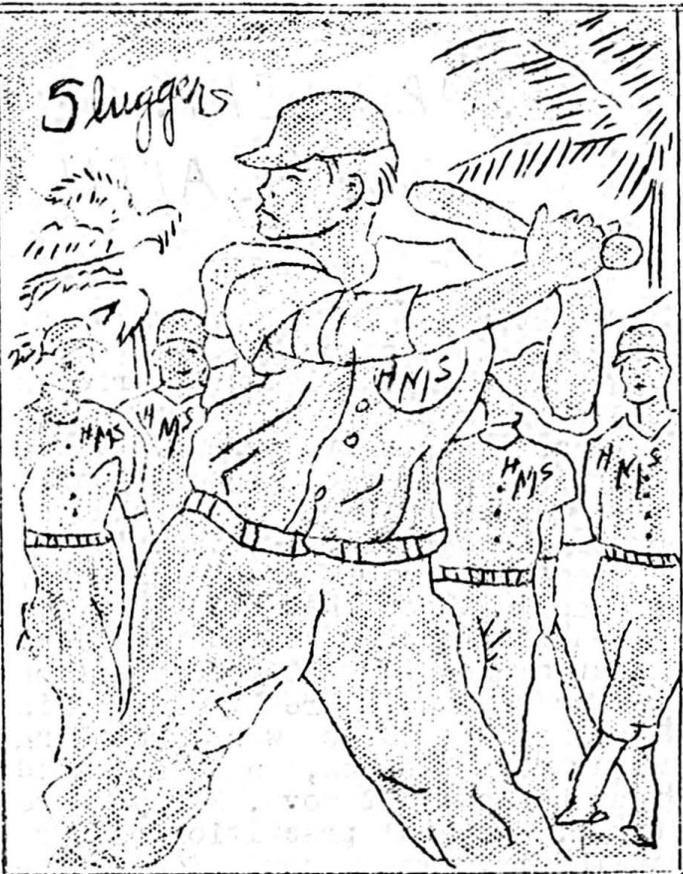

For the first time, also, there are flowers planted about many of the wards, where there were no flowers before. Blooming plants bring happiness to all who see them, but nowhere else do flowers afford greater joy than they do to patients in a hospital. They breathe their gentle messages to the sick, just as they do to the well, telling that there is kindness, thoughtfulness, still in the world. The flowers at MSH are here because of somebody's thoughtfulness; somebody cares; somebody wants MSH patients to share the beauties of Spring flowers.

From MSH the shut-ins, as well as those who get outside, see the magic of Spring changing the drab winter-wear of the hills to bright shades of green.

Spring is a period of promise. In Spring thoughts turn to the future. It is the time of year that Mother Nature teaches her annual lesson. Then she reminds us that bright, cheerful days always come, regardless of the rigors winter has inflicted.

Hope springs eternal in the human breast, but never so glowingly as in Spring. Because hope is the motivating influence of all patients at MSH, Spring is joyously welcomed here.

Yes, we of MSH hail Spring -- with its abundance of HOPE.

### SLUGGERS IN NEW ATTIRE

The Talmage Sluggers wore their new uniforms for the first time last Sunday and looked pretty slick. The suits are white with a black trim, with the insignia MSH being done in black on the left breast.

Socks are all black, and the outfit is topped with a solid black cap.

### SPORTS

(Continued)

Ottosen RF, Openshaw LF, Mosna 3B, Guidi CF, Moroni C, Baird P, and Severi P.

Plans are under way for the rebuilding of the right and left field fences as they are sadly in need of repair. The grandstand and bleachers are also scheduled for a new coat of paint.

The playing field is already in first class condition and with these new improvements the MSH ball park will keep pace with the best in this part of the state.
